

# ESENCIA GV PITAHAYA

## FICHA TÉCNICA

### Product identifier

|                 |  |
|-----------------|--|
| Product form    | : Mixture  |
| Product name    | : ESENCIA GV PITAHAYA  |
| Recommended use | : Fragrance oil for use in a wide range of candles, cosmetic, and industrial applications. |

### Physical and chemical properties

|                                 |                                   |
|---------------------------------|-----------------------------------|
| Physical state                  | : Liquid                          |
| Color                           | : light yellow amber              |
| Odor                            | : characteristic                  |
| pH                              | : No data available               |
| Melting point                   | : No data available               |
| Freezing point                  | : No data available               |
| Boiling point                   | : No data available               |
| Flash point                     | : 64.2 °C (closed cup) ASTM D7094 |
| Auto-ignition temperature       | : No data available               |
| Decomposition temperature       | : No data available               |
| Flammability (solid, gas)       | : No data available               |
| Vapor pressure                  | : No data available               |
| Relative vapor density at 20 °C | : No data available               |
| Relative density                | : ≈ 1.05                          |
| Solubility                      | : No data available               |

### Stability and reactivity

#### Reactivity

No additional information available

### Chemical stability

Combustible liquid. May form flammable/explosive vapor-air mixture. Not established.

### Possibility of hazardous reactions

Not established.

### Handling and storage

Refer to the safety data sheet before handling or disposing

|                                   |  |
|-----------------------------------|--|
| Additional hazards when processed | : Handle empty containers with care because residual vapors are flammable. Keep away from heat/sparks/open flames/hot surfaces. - No smoking.  |
| Precautions for safe handling     | : No open flames. No smoking. Avoid breathing dust/fume/gas/mist/vapors/spray. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. |
| Hygiene measures                  | : Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse.  |
| Technical measures                | : Proper grounding procedures to avoid static electricity should be followed.  |
| Storage conditions                | : Keep in fireproof place. Keep only in the original container in a cool, well ventilated place away from : Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container closed when not in use.                            |
| Incompatible products             | : Strong bases. Strong acids.  |
| Incompatible materials            | : Heat sources. Sources of ignition. Direct sunlight.  |
| Storage temperature               | : 25 °C  |
| Storage area                      | : Store in a well-ventilated place. Store away from heat.  |
| Special rules on packaging        | : Store in a closed container.   |
| Packaging materials               | : Do not store in corrodable metal.  |

### Liability
